Timy Trosper presented the proposed resolutions

Resolution 1: Tools for species sustainability.

Whereas species numbers fluctuate from year to year and some increasing and some decline faster than others and;

Whereas there are possibilities that some species may become candidates for listing as threatened or endangered, and;

Whereas land use restrictions have been used as the primary tool to facilitate habitat species management.

Therefore be it resolved the Colorado Cattlemen's Association opposes the restriction of land use by any government entity as the primary a tool to manage wildlife.

Therefore be it further resolved CCA strongly supports hunting as a tool to sustain and regulate wildlife population's species.

Timy Trosper moved to accept the resolution. It died from lack of second.

Resolution 2: Reportable Disease Management by the State Veterinarian.

Whereas trichomaniasis is rapidly expanding in the West, and;

Whereas the best control of trichomaniasis requires communication and information, and;

Whereas promises to form a working group to study this problem have failed;

Therefore be it resolved that the Colorado Cattlemen's Association through its animal health committee seek implementation by the state Veterinarian of the following agenda:

- Immediate notification of area producers that the specific reportable disease is in their area, and;
- Immediate education sessions and information distribution about the disease and how to control and ultimately eradicate the disease, and;
- Immediate notification of area veterinarians as to who has the disease s that they may assist in the control and eradication process, and;
- Enforce the rule requiring the testing for trichomaniasis of non-virgin bulls sold through auction markets which are not bound for immediate slaughter.

Pat Karney moved and Joe Kasza seconded to accept the resolution. Motion passed by voice vote.

Resolution 3: Band Board Assessment

Whereas the Colorado Board of Stock Inspection is a self funded agency, and;

Whereas the 5-year assessment generates a very large pool of money, and;

Whereas the State of Colorado is continually eyeing this money in times of deficits to balance the state budget;

Therefore be it resolved that the Colorado Cattlemen's Association support the implementation of a 5-year rolling brand assessment so that the assessment pool is maintained at a minimum dollar level.

Joe Kasza moved and Pat Karney seconded to accept the resolution. Motion passed in a split card vote.

Resolutions 2 and 3 will be forwarded to CCA.

Whereas, since the last annual meeting many of our beloved and valued members passed to their reward. We share the sorrow of their families and loved ones and to their memory, we pledge to support the principles which these great men and women, who have gone before us, have firmly instilled in our association.
